

Usability of DPDK

John McNamara- Intel DPDK

DPDK Userspace - Dublin - 2016

Usability of DPDK

- ▶ Usability from DPDK Userspace 2015
 - ▶ Progress in the last 12 months
 - ▶ Usability improvements in the next 12 months
-

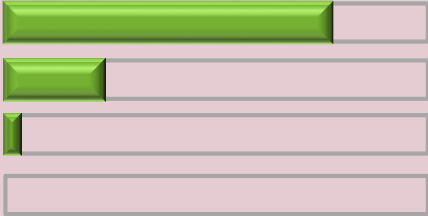

Usability features from 2015

Feature	Progress
Create a User Mailing List	
Make the dpdk.org website patchable	
Add a Contributing Guide	
Add a README	
Mempool debugging	
Make latest version of the docs available	
Issues with config files - Too many options turned off by default	

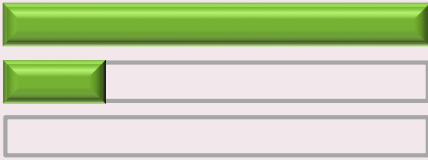

Usability features from 2015

Feature	Progress
More sample apps - Some more examples of using secondary processes.	
rte_malloc() - Don't use rte_malloc() where malloc() would do.	
Logging and debugging via a secondary process.	
Distributed testing - Continuous testing	
Improve the build system <ul style="list-style-type: none">• Make install needs to be improved. Doesn't do what the user expects.• Use kconfig.• Add better support for cross compilation. Useful for arm target.• Use autotools and configure.	

Usability features from 2015

Feature	Progress
<p>Debuggability</p> <ul style="list-style-type: none">• User expectation for tools like tcpdump to work with DPDK NICs.• Maybe add debug hooks via rx/tx callbacks.• Add/extend a solution based on KNI.• Use systemd naming algorithm for KNI.	 Four horizontal progress bars. The top bar is approximately 75% filled with green. The second bar is approximately 25% filled with green. The third and fourth bars are empty.
<p>EAL annoyances</p> <ul style="list-style-type: none">• Have a default for -n.• Have more/better/all default options. EAL figures out requirements.• Move the EAL to the kernel.	 Three horizontal progress bars. The top bar is approximately 95% filled with green. The second bar is approximately 25% filled with green. The third bar is empty.
<p>Too much duplicated code in the PMDs</p>	 One horizontal progress bar, approximately 10% filled with green.
<p>Running DPDK applications as non-root</p>	 One horizontal progress bar, approximately 10% filled with green.

Usability features added in last year

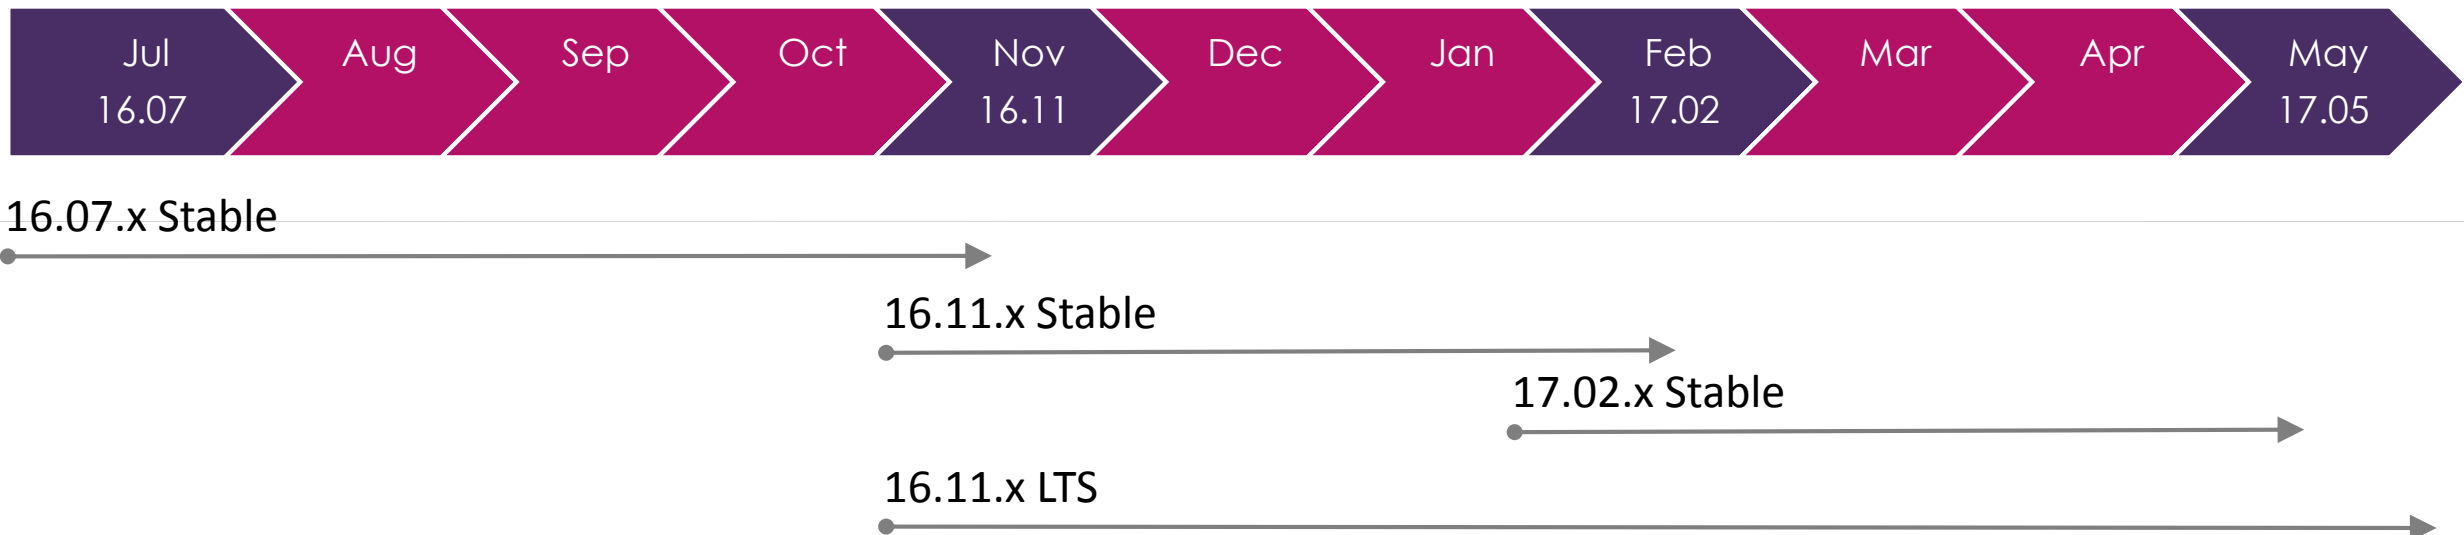

- ▶ Pdump library
- ▶ Manpages
- ▶ How-to docs
- ▶ NIC overview table
- ▶ Developer/contributor tools
 - ▶ Checkpatch
 - ▶ Git log check
- ▶ Consistent naming of DPDK tools
- ▶ More consistent installation
- ▶ Improvements for/by OSVs
- ▶ Stable/LTS releases

Stable/LTS releases

Release Type	Duration	Patches	Target Users
Stable	1 release	Fixes	Projects with release cycle like DPDK: OVS, OPNFV
Long Term Support	2 Years	Fixes + Features*	Projects with long term support: OSVs

Usability features for next year

- ▶ DPDK training options
- ▶ DPDK Developer Certification
- ▶ Improvements to documentation
- ▶ Better documentation/design doc for secondary process
- ▶ A better way of adding PMD specific features
- ▶ Gerrit
- ▶ Googletest
- ▶ ABI
